About Me

Product and UI/UX designer with 4+ years of experience in visual production and animation, bringing strong skills in visual storytelling, interaction and motion. Designs end-to-end mobile and web products, from user research and personas to wireframes, design systems and animated prototypes in Figma. Focused on human-centered design, simple flows and AI-assisted workflows.

Projects Overview

- **HelpHive –** Hyperlocal Domestic Helper Platform

  Designed HelpHive, a mobile app for booking verified domestic help in India, from research and AI-assisted personas to wireframes and high-fidelity UI in Figma, featuring ID-verified profiles, a ₹49 trial booking and multilingual support, plus marketplace strategy with worker certification levels and a 3-phase expansion plan.
